EDUCATION

Narayana Engineering College

B.Tech – Computer Science & Engineering (Artificial Intelligence) | CGPA: 8.8

Nellore, AP

Aug. 2024 – Jul. 2028

Narayana Junior College

Board of Intermediate Education – M.P.C | 82%

Nellore, India

Jun. 2022 – May 2024

Narayana Concept School

Secondary School Certificate | 75%

Nellore, India

Jun. 2021 – Apr. 2022

TECHNICAL SKILLS

Languages: Python

Data Analysis: SQL, Excel, Pandas

Frameworks / Tools: Git/GitHub, Google Colab, VS Code, REST APIs, Jupyter Notebook

EXPERIENCE

Innoknowvex Edutech Pvt. Ltd.

Remote, India

Data Science Intern

Nov. 2025 – Jan. 2026

- Engineered a content-based movie recommendation system using TF-IDF vectorization and cosine similarity, achieving 85%+ relevance accuracy across a dataset of 5,000+ movies.
- Reduced data noise by 40% through structured preprocessing pipelines – handling missing values, duplicate removal, and feature extraction – improving downstream model performance.
- Built and evaluated 3 ML models for predictive analytics, applying cross-validation and hyperparameter tuning to improve prediction accuracy by 22% over baseline.
- Produced 10+ interactive dashboards and visualizations using Pandas, Matplotlib, and Seaborn, translating raw data into actionable business insights for stakeholders.
- Delivered full end-to-end data science workflow across 2 projects – from data collection and EDA through model deployment – within a 2-month internship timeline.

PROJECTS

SkillVerse-AI | HTML, CSS, JavaScript, LocalStorage

Jan. 2026 – Apr. 2026

- Built an AI-powered career guidance platform with personalized learning roadmaps across 13 domains including AI/ML, Data Science, Cybersecurity, and Cloud Engineering.
- Implemented an AI Mentor Assistant with XP tracking, milestone badges, mock interview prep, and a resume scorecard system to guide students end-to-end.
- Developed a coding challenge playground and curated resource hub with YouTube channels and practice platforms, persisted via LocalStorage with a glassmorphism UI.

NovaX-AI (VoiceCare) | Next.js, TypeScript, OpenAI, Eleven Labs, Twilio, Tailwind CSS

Apr. 2026 – Jun. 2026

- Built an AI voice companion for elderly users featuring multilingual speech recognition and natural voice synthesis via Eleven Labs for medication reminders and appointment scheduling.
- Integrated Twilio SMS emergency alerts to caregivers and OpenAI for context-aware conversations across English, Hindi, Telugu, Tamil, and Kannada – supporting 5 languages.
- Deployed a Next.js + TypeScript application with PostHog LLM observability, real-time push notifications, and a fully voice-driven senior-friendly interface.

CERTIFICATIONS & ACHIEVEMENTS

Google Cloud Generative AI Certification – Google Cloud Skills Boost (2026)

Data Science & Analytics Virtual Experience Program – Lloyds Banking Group (Forage) (2025)
